

JOHN KERRY on EDUCATION

“If you want the promise of this country fulfilled [our children] need great teachers, smaller classes, character education and mentors. [We need to] liberate schools from bureaucracy, challenge them with public school choice and competition and insist on high standards. We need to guarantee they don't just get a diploma but they get a world class education.”

Senator John Kerry has and will:

- Oppose Private School Vouchers (increase resources to public schools instead)
- Keep the Promises of “Leave No Child Behind” (with funding & flexibility for states)
- Support Early Education (increase funding for Head Start and child care)
- Modernize and Rebuild Crumbling Schools (introduced legislation to give \$24.8 billion to help repair and build schools)
- Open the Doors of College (increase Pell Grants)
- Reduce Class Size, Encourage Parental Involvement, Support Teachers and School Leaders, Fund Special Education

For the past 8 years, John Kerry has received a 100% rating from the National Education Association.
